SERVICES PROVIDED:

This catalog will introduce you to some of the new services. They are available for Albania, Kosovo and beyond.

TRANSFORMING YOUR JOYS IS NOW JUST A BOOKING AWAY!

- Performance with cello

The repertoire of songs is wide to suit the joy that the client has. Any musical desire or request is easily achievable!

Cello performances at a wedding are available:

- In the space dedicated to the cocktail
- At the entrance of the couple in the hall
- After the arrival of the bride
- After a short break from the songs of the DJ or orchestra
- During the moment of cutting the cake

How long do the performances last?

Cello performances usually last from 30 minutes to 1 hour, depending on your desire, the nature of the event and the atmosphere.

- Music of course adapts depending on the regions. It can be Albanian and international. The repertoire is also determined based on tastes and agreement.

- DJ

Did you know that finding the perfect DJ is one of the biggest responsibilities you have? Yes, you read that right! "One of the biggest responsibilities." The reality is that you spend so much time and money creating the perfect wedding and it would be a sin to ruin it by choosing the wrong DJ.

**Booking your entertainment should be a top priority.
Otherwise why are the best DJ's booked early?**

Albanian, foreign music, the latest music products and hits are offered thanks to modern and professional equipment.

How is the payment processed?

To start booking you need to leave a down payment (or otherwise deposit).

This can be done:

- Transfer to the bank account
- With Western Union
- Using Moneygram
- Using Ria
- Physical meeting

Clarification:

Payments are fixed and at your request, an invoice can be issued or a contract can be signed.

How does it work with events in the Diaspora?

If you are interested in these services in the Diaspora or anywhere outside the borders of Albania, the client should take over:

- Payment of the plane ticket
- Accommodation
- Audio Technique

Otherwise the above fees will be added to the final value of the service.

- Professional lighting

Professional lighting, carefully thought out and curated will definitely give another look to your wedding hall, birthday or any other event. Professional lighting has the power to transform a hall, from ordinary to extraordinary.

**Professional lighting is possible
to be realized even outdoors!**

Why invest in it?

Professional lighting is one of the most important contributors to the production of high quality video. Lighting can completely change the look of a photograph, its mood, its tone and the overall quality of a scene. When it comes to video, getting the right lighting is one of the biggest challenges.

To produce high quality video, lighting must highlight landscapes and illuminate subjects. This is why you need professional lighting. With them you can find balance and avoid unpleasant problems while watching your wedding video.

Regardless of the type of event you have, good lighting is essential. It's the difference between a video that looks amateurish and not enjoyable, and a video that looks professional and curated.

Note!

A good cello performance also needs lighting support. Contracting a technician would be a necessary element to cooperate with, and be in sync with raising or lowering the lights depending on the performance.

- Professional Audio

- Audio technically is available for every event, starting with those with 50 people up to large events with 300-500 guests.

- Technique is able to provide the right infrastructure for different singers who can perform LIVE during the wedding. In such cases there is no need for extra sound as this service is offered within the package of Dj.

Forget those weddings where the music in our ears buzzed for days. With the latest equipment and tools, everything is easier. Music is best enjoyed if you trust the professionals!

Do you need a microphone?

Yes. If you have more than 20 guests, then you need a microphone at your wedding ceremony.

Also:

- It's possible to offer music in the cocktail area (before the start of the wedding ceremony).

- The boxes offered are with wireless (without cables) which do not interfere and offer a high quality audio.

- A box 1 + microphone can also be made available at the ring ceremony.

- Show elements

A wedding that lasts a minimum of 6 hours, is not at all difficult to become boring if there is not a little show inside.

All your joys go to another level if they have elements such as:

- **Fireworks:** Can be used at the moment of entry of the couple, the moment of the cake, etc.

- **Low Fog:** Ideal for the couple dancing, or for the girl's dance with the father, etc.

Why spend on fireworks and Low Fog?

For loving couples, there is no day more important than their wedding. After spending months or even years planning their wedding, they want to make sure everything goes according to plan, their guests have a good time and they can really celebrate the way they want

One of the best ways to ensure that your wedding is noisy is to have a professional fireworks display at the beginning or end of the evening!

Fireworks shows are a great start or finale to your wedding, engagement or birthday. Low Fog, on the other hand, carry the **WOW** factor for your friends and family!

BONUS

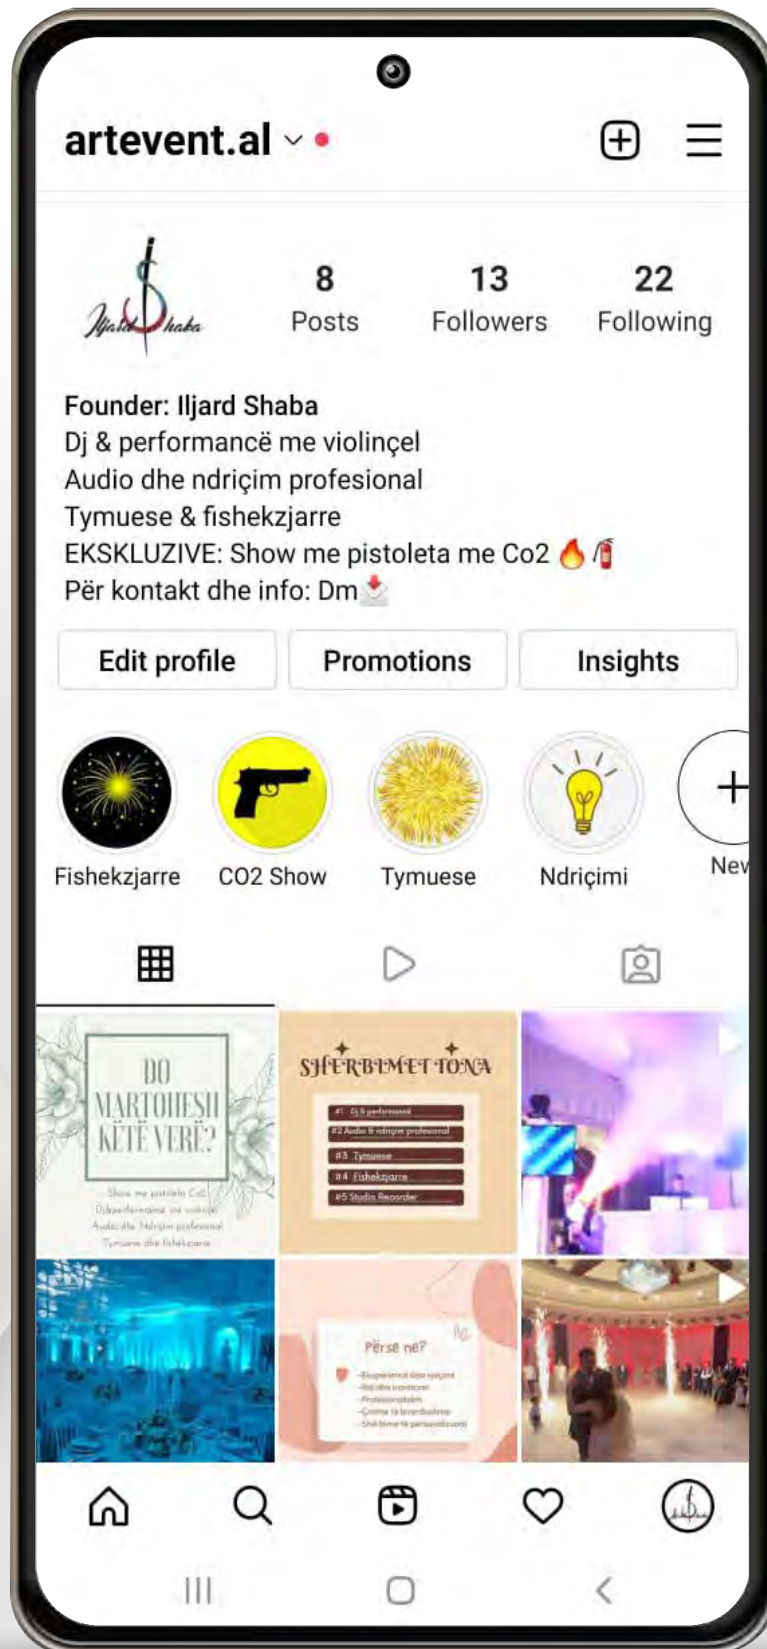

If you are interested in booking Iljard Shaba throughout the wedding, get a FREE performance with “Lahutë”, a traditional Albanian musical instrument valid for:

- **North territories**
- **Albanians of Kosovo, Macedonia or Montenegro.**
